

## HBC Academy - IT Professional Suite for Overseas Students

All of the courses below are run in the HBC Academy style which focuses on skills based learning with a strong emphasis on practical application. This is not a “fast track, learn how to pass the test” course. We use a blended learning model which is fully instructor led and uses the latest curriculum and lab equipment available. Overseas students must attend class for 16 hours per week and do 9 hours home study.

3 year Technical Programme \*
